

You are invited to the

Edu & School Day - 3rd July 2007

Akademy 2007 - University of Strathclyde, Glasgow, Scotland

Who?

All people interested in Free Educational Software

- developers, school administrators, teachers, parents, community groups and associations, etc.

Target Audience:

- Linux Educational Distributions (SkoleLinux, Meduxa,...): aims, use cases
- System administrators: how they deploy in schools or communities
- Developers (GCompris, Tux4Kids, SchoolPlay, KDE-Edu developers...): presentation of their software what do they have in next version
- Teachers and community people using free educational software: feedback and wishes
